## PestSure Members Say it Best

**"**At Cook's, loyalty is very important. Loyalty to our customers, employees and, yes, to our vendors. We don't think it's good business to jump to another carrier just because we can save a few dollars. PestSure and their support for us have paid dividends to Cook's and PestSure.

Moving money around with the stock market's peaks and valleys does not serve us well, and neither does making these types of moves with our insurance coverage. **"**

**"**All of us at the Sprague Team are appreciative of the responsiveness of the entire PestSure team. They communicate effectively and respond quickly to our many requests. We feel we get great value from our partnership. **"**

**"**PestSure has been a GREAT safety and loss-prevention resource for me as Human Resources Manager. When I have a question about anything concerning our insurance, I am very comfortable calling PestSure, and the answer I get is always easy to understand. I don't get the runaround! With our prior insurance group, it was obvious they were in it for the money and definitely not the service. PestSure provides awesome service and services. **"**
