Tips for Working in Attics

Name _____

Date _____

- | | True | False |
|--|--------------------------|--------------------------|
| 1. Inadequate lighting can pose a hazard for you when you are working in an attic. | <input type="checkbox"/> | <input type="checkbox"/> |
| 2. The attic access ladder provided by the home or business is always the best way to gain access to the attic. | <input type="checkbox"/> | <input type="checkbox"/> |
| 3. Most ceilings will hold your weight as long as you walk softly when not on a joist. | <input type="checkbox"/> | <input type="checkbox"/> |
| 4. Attics often have limited overhead clearance and sharp objects protruding; both hazards can be minimized by wearing a bump cap. | <input type="checkbox"/> | <input type="checkbox"/> |
| 5. Rest breaks from an attic job are necessary both for re-hydration and to allow your body to cool down. | <input type="checkbox"/> | <input type="checkbox"/> |
