The Cause of Accidents Quiz

Name _____

Date _____

- | | True | False |
|---|--------------------------|--------------------------|
| 1) Most accidents are caused by unsafe conditions instead of unsafe acts. | <input type="checkbox"/> | <input type="checkbox"/> |
| 2) Employees have the greatest control over their personal safety. | <input type="checkbox"/> | <input type="checkbox"/> |
| 3) Unsafe acts are typically associated with employee behaviors such as failing to follow established safety rules and/or wearing appropriate PPE. | <input type="checkbox"/> | <input type="checkbox"/> |
| 4) Unsafe conditions can become an unsafe act if they are noticed and go unreported. For example, using a machine with a defective or missing guard without correcting it is an unsafe act. | <input type="checkbox"/> | <input type="checkbox"/> |
| 5) The focus on unsafe conditions is not important since most accidents result from unsafe acts. | <input type="checkbox"/> | <input type="checkbox"/> |
