## Adjust Your Mirrors for a Good View

Name \_\_\_\_\_

Date \_\_\_\_\_

- |   | True                     | False                    |
|---|--------------------------|--------------------------|
| 1) If my mirrors are adjusted properly, there is never a need to turn my head to check traffic space behind me.                                       | <input type="checkbox"/> | <input type="checkbox"/> |
| 2) To adjust the driver side mirror properly, I should sit in the drivers seat and press my head against the driver side window as I adjust the view. | <input type="checkbox"/> | <input type="checkbox"/> |
| 3) By having my mirrors overlap in view, I can be extra certain that I will see the other vehicles as I change position in traffic.                   | <input type="checkbox"/> | <input type="checkbox"/> |
| 4) To adjust the passenger side mirror properly, I should position myself to the center of the vehicle.   | <input type="checkbox"/> | <input type="checkbox"/> |
| 5) With my mirrors properly adjusted when seated in the driving position, I should not be able to see the sides of my own vehicle.                    | <input type="checkbox"/> | <input type="checkbox"/> |
